

DEATH BROADCAST

from the Office of the State Registrar of Vital Statistics

January 2018

Closing Out 2017 Death/Fetal Death Data

We ask that you please get all 2017 unregistered and pending death/fetal death certificates registered and submitted to the State Vital Records office as soon as possible. We understand that coroner offices will yet have pending records.

Revised Fetal Death Certificate and Updated Field Instructions

The Fetal Death Certificate has had a couple of minor revisions and the Field by Field Instructions have also been updated. The form has been updated to include a checkbox option in field #21, Month of Pregnancy Prenatal Care Began, and to add City and State to field #10c, Place of Disposition. The previous form will still be accepted until July 1, 2018. The updated form will soon be available on the Extranet, Forms, Fetal Death Forms. If you have questions, please contact Sam Vasquez at samuel.vasquezjr@state.co.us.

EDR, PINs and "Remember My Password"

We are receiving reports that PIN's that have worked in the past may have stopped working. We have determined that this is not an EDR issue but due to the user's web browser 'remembering' the user's passwords and filling in fields with old information. If this is an issue for you, please consider disabling this setting under your Internet tools, settings, or security. Otherwise, you may need to use a different browser or computer that is not 'remembering' your passwords, etc.

Tri-County Vital Records Opens Third Office

The Tri-County Health Department, which covers Adams, Arapahoe and Douglas Counties, is opening their newest vital records office in Castle Rock on January 16th. Here is the contact information for this office:
