Certification Committee

In the past couple of years we were issuing a one year certificate based on 16 hours of continuing education. At the time we thought this would make it easier for Coroners to make them both the same. This process was not only time consuming for each Coroner but very confusing causing mix up's with the CCSTB mandatory hours. The CCA Board voted at the last meeting to go back to the original 4 year re-certification (64 hours) process. Hopefully this will make it easier on everyone. The forms are on the CCA website and if you have any questions please give me a call.
